

KID'S CLASSES

CHILDREN'S COURSES

Haven't you wished you started learning French or other foreign language when you were a child? Allow your child to experience this enormously beneficial activity.

Learning a new language is much easier for children than for adults. Young ears perceive the nuances of sounds; and children's tongues get smoothly accustomed to pronouncing foreign phonemes, which lead to speaking the language perfectly and without an accent.

Apart from linguistic benefits, the cognitive abilities of children learning a foreign language are increased. Their future study and work options are multiplied, travels to other countries bring more unique experiences and learning other languages becomes easier!

Les Koalas & Les Kangourous

Audience:

- Kids attending school
- Homeschooled Kids

Our Alliance Française of Milton-Ulladulla is seeking expressions of interest from parents' of school aged children - 8-11 years. We envisage offering a one hour after-school class in 2026 during the school term.

Contact us at info@afmiltonulladulla.org.au for more information.
